Courses

- Core Java With DSA
- Software Developer

CERTIFICATES

Coder Discovery boot camp (05/2024 - 05/2024)

participation in Two days Workshop

Circuit Designing & Extension Wiring (03/2024 - 03/2024)

Participant During the two Days Workkshop held On 1st & 2nd March, 2024.

Internet Of Things (IOT) (03/2024 - 03/2024)

Participant During the three Days Workkshop held On 28 & 30 March, 2024.

Codefest 1 (02/2024 - 02/2024)

participation in Two days

PERSONAL PROJECTS

Traveling Management System (07/2024 - 07/2024)

- Developed a comprehensive Travel Management System using Java that streamlined the process of booking and managing travel plans for users. The system featured functionalities for user registration, travel package selection, booking, payment processing, and generating travel itineraries
- Designed and implemented a robust booking module using Java and JDBC, which reduced booking time by 40% compared to the previous system. Integrated real-time seat availability checks and booking confirmation to enhance user experience.
- Developed a report generation feature that allowed users to generate and print detailed itineraries and booking summaries. Implemented using Java Swing's JTextArea and JFileChooser , this feature was highly appreciated by users for its simplicity and utility.

ACHIEVEMENTS

Led a Workshop: Organized and led a workshop on "Introduction to Cloud Computing" for fellow students, covering the basics of AWS, Azure, and Google Cloud. The workshop was attended by over 50 students and received positive feedback for clarity and practical insights. (2023 - 2024)
